Dear brother and sisters trade unionists,

Teachers' Trade Union "Podkrepa" closely monitor your struggle and is extremely compassionate with your actions for the survival of the Greek education and keeping the statute and the dignity of the Greek teacher.

Your struggle is our struggle too, because the world crisis forced our governments to think less and less about education and made the teachers look like a sin offering of bad political and financial management.

Teachers' Trade Union "Podkrepa" supports your just demands and actions and greets you for your Trade union activity.

Dear brothers and sisters, we from Teachers' Trade Union "Podkrepa" – Bulgaria are telling you:

Do not stop your struggle and mass activities against the genocide towards the educational workers. Your united and mass activities should serve as a model to the Trade Unions in Europe.

You will win!
