Dear Mr Kotsifakis,

The **Malta Union of Teachers (MUT)**, representing all teaching grades in Malta from kindergarten to University, expresses our full support to the Greek teachers and their union in their call to maintain their right to strike. MUT supports the Greek civil servants and employees of the public service and condemn any treat of dismissal to employees who are rallying for their cause.

MUT expresses solidarity and calls on the Government of Greece to strengthen democracy by listening to the social partners through improved institutional social dialogue

Sincerely,
Anthony Casaru
International Secretary
